FROM A CREATIVE IDEA
TO A UNIQUE PROMOTIONAL PRODUCT

Are You a HEJU Fan Yet?

If not, our new catalogue is the perfect opportunity to discover the HEJU product range for yourself.

We understand the wide variety of customer requirements and select our products accordingly. Tried-and-tested favourites such as charging cables, USB flash drives, and touch styluses are available in numerous versions throughout the catalogue. Our range also includes premium gadgets such as travel adapters, power banks, and headphones. Add your customer's branding, and these products become powerful ambassadors for their brand.

For those looking for something even more individual, HEJU offers a wide variety of products in exclusive custom shapes. Whether it's a speaker shaped like your customer's product, an ice cube tray or baking mould featuring their logo, or a plush toy based on their mascot – when it comes to custom designs, the possibilities are virtually endless.

Discover a new addition to the HEJU textile range from page 26 onwards: supporters' scarves. The promotional message is knitted directly into these high-quality scarves rather than simply printed onto the surface, ensuring a durable, premium-quality result. The scarves appeal to a wide range of target groups, including schools, sports clubs, companies, fan clubs, and event organisers. Why not introducing your customers to this versatile promotional product?

Are you a HEJU fan now? Then you'll also appreciate the additional services we offer beyond our promotional product range, including assembly and fulfilment, as well as shipping and distribution. Take advantage of our services and make your day-to-day work easier.

You'll find further details on page 28.

Please feel free to contact us at any time with your questions, requests, or ideas.
Email: willkommen@heju.eu | Phone: +49 681 8800917

We look forward to hearing from you!

Unless otherwise stated, all prices listed in this catalogue are net recommended prices for unbranded products. Product information is based on the specifications available at the time of publication and is subject to change or variation.

You are guaranteed
to find your personal favorite here.

4 Charging Cables & Adapters

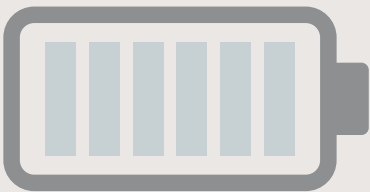

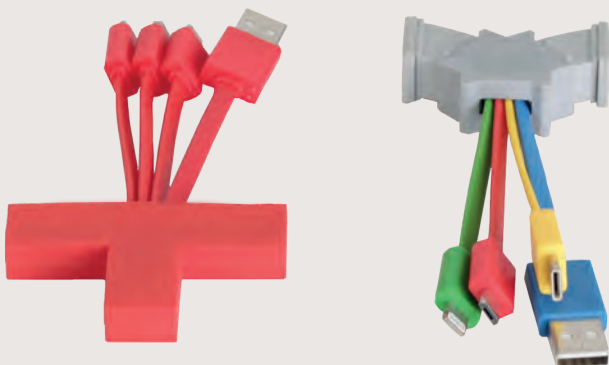

HEJU charging cable

Charging cables are one of the cornerstones of the HEJU product range, which is why they take pride of place at the beginning of our catalogue. Whether you need single or multi-connector cables, magnetic or plug-in connections, our extensive selection is designed to meet a wide variety of user requirements.

Can't find the right cable for your customer? Simply send us your request. In addition to our standard product range, we can manufacture many other cable models to your specifications. Just give us a call or send us an email with your requirements, and we'll take care of the rest.

Looking for something truly unique? Then consider a custom-shaped connector. Whether it's your customer's logo, a flagship product, or an industry-specific symbol, you'll be amazed at what can be created as a custom 3D design. We'd be happy to advise you on the wide range of possibilities available.

HKA20100-A

CHARGING CABLE HEJU CLEVER

Charge your smartphone, laptop, and other devices at lightning speed with this high-performance USB-C cable. It also enables ultra-fast data transfer, combining charging and data transmission in a single cable. An integrated display lets you monitor the charging power in real time.

Power banks: Questions & Answers

Which devices can be charged?

In principle, any device that can be charged via a 5 V USB connection, including smartphones, tablets, cameras, laptops, portable speakers, wearables, and many other USB-powered devices.

Can tablets such as the iPad also be charged?

Yes, they can. However, the power bank should provide an output of at least 1 A, as iPads require a minimum charging power of 5 W. It is also important to choose a power bank with sufficient battery capacity. For example, a 2,200 mAh power bank will only charge an iPad to around 10–15%. Unless the power bank is intended solely for emergency use, we recommend a capacity of at least 5,000–8,000 mAh.

Why do some power banks have two USB outputs?

Two USB outputs allow you to charge two devices simultaneously, for example a tablet and a smartphone.

Why doesn't my power bank deliver its full rated capacity?

Most power banks use lithium-ion or lithium-polymer battery cells with a nominal voltage of 3.7 V. The stated mAh capacity refers to this 3.7 V cell voltage. Since the USB output of a power bank operates at 5 V, the voltage must be stepped up during the charging process. As a result, the available capacity in mAh is reduced. For example, a 5,000 mAh power bank rated at 3.7 V (100%) provides approximately 3,700 mAh at 5 V (74%). In addition, the power bank's internal electronics consume around 10–15% of the stored energy, and a small reserve is always retained to protect the battery from deep discharge.

In summary: the effective usable capacity of a power bank is typically 60–70% of its stated capacity.

Why does the power bank have one 1 A output and one 2.1 A output?

Many modern devices support fast charging, allowing a large portion of the battery to be recharged in a short time. For example, an iPhone 12, 13, or 14 can be charged to nearly 50% in just 30 minutes when used with a 20 W Power Delivery (PD) charger. To enable these higher charging speeds, the power bank must provide significantly more power than the standard 1 A (5 W) output.

How many Watts does USB-A support?

Traditionally, USB-A was limited to a maximum output of 12 W (5 V / 2.4 A). With Qualcomm® Quick Charge™ technology, however, USB-A can deliver up to 18 W of charging power. Power Delivery (PD) power banks are also available from HEJU on request.

Which certifications are required to ship power banks internationally?

In general, you will need a Material Safety Data Sheet (MSDS) and UN38.3 certification to ship power banks internationally. The MSDS provides information about the battery's chemical composition, while UN38.3 confirms that the battery has successfully passed the required transportation safety tests, including drop, vibration, temperature, and other safety assessments.

If you require these documents, simply let us know when placing your order. We will provide the necessary certificates as quickly as possible.

Why choose a HEJU Power Bank?

At HEJU, your power bank is manufactured to order in Asia, ensuring that it is produced shortly before delivery. This guarantees that the battery cells are new and fresh, providing optimum performance and service life. Low-cost suppliers often sell power banks that have been stored for long periods. Extended storage can have a negative impact on battery health, as lithium batteries gradually self-discharge and may suffer damage from deep discharge. Under typical storage conditions (around 20°C), self-discharge is approximately 4% per month. Depending on the initial charge level, battery damage can occur after as little as six months of storage.

HWC20101

CHARGER HEJU WIRELESS PUCK

Qi chargers to
suit your taste

These stylish wireless chargers are outstanding promotional products: they offer a large branding area, are used every day, and are compatible with a wide range of devices. Have a specific design in mind? We'll bring your ideas to life—and if you wish, we're happy to provide additional creative inspiration. The result is a distinctive promotional product that will leave a lasting impression on your customers.

12 USB flashes

A TIMELESS PROMOTIONAL FAVOURITE

USB flash drives are compact storage solutions and the smart way to carry data wherever you go. Whether it's company brochures, presentations, videos, or complete product catalogues, a USB drive is an elegant and effective way to share your brand message. And at HEJU, we offer much more than just USB flash drives.

On request, we can duplicate your data in Germany in full compliance with German data protection regulations, whether you need a small or a large production run. We also offer image duplication with verification of both the stored content and the memory cells, ensuring maximum data integrity and reliability.

An ideal promotional gift for trade shows, conferences, corporate events, and many other occasions.

Be Unique!

Custom-Shaped USB Flash Drives from HEJU

Present your product information, catalogues, or documentation on a custom-shaped USB flash drive. A bespoke design **highlights the uniqueness** of your company and your products, helping your brand stand out and attract significantly more attention.

Webkey

– The Key to Your Customers' Digital Experience

A WebKey looks similar to a USB flash drive but is not a storage device. Instead, its integrated chip contains a link to a website. Simply plug the WebKey into a USB port while connected to the internet, and the stored webpage will open automatically - in the user's web browser.

The WebKey is a flexible, space-saving marketing tool with a wide range of applications. It can be used to share company information, promote an online shop, send invitations, and much more. With a broad choice of shapes, materials, and branding options, it can be customised to perfectly reflect your brand.

By combining the tactile appeal of a physical WebKey with the power of digital content, you create memorable brand experiences and provide your customers with a truly unique way to connect with your business.

Solar Eclipse Glasses

The next solar eclipse is guaranteed to come!

Get ready now for the demand surrounding the upcoming dates and start planning ahead with your customers.

As early as 6 February 2027, an annular solar eclipse will be visible in regions including Morocco, Gibraltar, and parts of southern and western Africa.

On 2 August 2027, a total solar eclipse will be visible from Gibraltar, Morocco, Spain, Tunisia, and Egypt. A partial solar eclipse will also be visible that day from countries including Germany, Luxembourg, Austria, Italy, Turkey, and Cyprus.

So don't wait too long – start planning now. That way, you'll be ready to make the most of the next big eclipse event.

Advertising doesn't get more individual than this: Bring your Brand to Life with Custom Speakers from HEJU

Looking for a truly distinctive promotional gift? A brand ambassador that really stands out?

A custom-shaped Bluetooth speaker from HEJU is a genuinely one-of-a-kind promotional product, designed and manufactured entirely to your specifications. Whether it's a vehicle, bottle, perfume flacon, plant, or virtually any other shape, you bring the idea and our designers will turn it into reality.

And because Bluetooth speakers remain among the most popular promotional gifts, your brand message is sure to make a lasting impression.

HEJU CUSTOM-SHAPED LOUDSPEAKER

Whether it's a little green cactus or a big blue truck, you provide the concept and we'll bring it to life. Almost any shape, colour, and functionality can be realised, creating a promotional product that's as unique as your brand.

Available from a minimum order quantity of 100 units.

HEJU POWER: Special forms

Many customers are looking for more than a promotional product customised with a logo print, embossing, or resin dome. They want a product that is completely custom-designed to reflect their brand. The result is a promotional item that captures attention and leaves a lasting impression.

To meet this growing demand, HEJU POWER expands our range of bespoke promotional products beyond our well-known custom-shaped USB flash drives, offering a selection of products that can be manufactured entirely to your specifications.

With HEJU POWER, you're guaranteed to impress your customers. Ice cube trays and silicone baking moulds are available from a minimum order quantity of 1,000 units, while anti-stress products, silicone cookie cutters, and non-stick baking mats can be produced in your custom design from 2,000 units. Simply send us your enquiry together with your design concept, and we'll take care of the rest.

Looking for something beyond our catalogue range? We're always happy to develop tailored solutions for special requirements. And if you're still looking for the perfect idea, our team will gladly support you with creative concepts and expert advice.

26 Custom-knitted fan scarves – The perfect fan accessory for clubs, companies, and events

A supporters' scarf is much more than just fan merchandise. It represents team spirit, identity, and passion. Whether for sports clubs, supporter groups, businesses, or events, a custom-designed supporters' scarf is a true eye-catcher that leaves a lasting impression. Made from high-quality materials and crafted with precision, our scarves combine durability with outstanding design, creating a promotional product that is as practical as it is memorable.

Your Benefits at a Glance

- Custom-designed with knitted logos and lettering
- Available in a variety of sizes and styles
- High-quality craftsmanship for long-lasting durability
- Soft, warm, and comfortable material
- Brilliant color reproduction and excellent shape retention
- Ideal for sports clubs, businesses, events, and promotional campaigns

High-quality knit

Your logo, club name, or promotional message is knitted directly into the scarf, creating a premium finish that is made to last. Unlike printed designs, the motif will not peel, crack, or fade over time. The result is a high-quality supporters' scarf with an elegant appearance and a soft, comfortable feel.

Various sizes for every application

Our supporters' scarves are available in a range of sizes and can be tailored to your specific requirements. Depending on the intended use, we offer various lengths and widths – from the classic stadium scarf to custom-sized designs.

Certified Quality

Quality and product safety are our highest priorities. The materials used comply with the requirements of the following standards:

EN 1122
ISO 18254-1

These standards confirm the controlled quality of the materials used and reflect our commitment to exceptional safety, quality, and craftsmanship.

Conclusion

A custom-designed supporters' scarf is more than just a high-quality fan accessory – it strengthens the connection to your club, brand, or event while creating a lasting impression. Combining premium knit craftsmanship, durable polyacrylic yarn, fully customised designs, and tested materials, our scarves are built to last and serve as an effective promotional medium.

Choose quality, individuality, and expert craftsmanship with knitted supporters' scarves that inspire loyalty and keep your brand in the spotlight long after the event.

HEJU – Add-ons

In addition to our extensive range of promotional products, HEJU offers a comprehensive selection of fulfillment services designed to make your projects easier and more efficient.

- We take care of the complete assembly of your promotional packages. Whether you require small or large quantities, or projects involving multiple components, we have the expertise to manage every aspect. From Christmas gift packs for customers and welcome packs for new employees to trade show goodie bags, member reward boxes, and much more, we assemble, personalise, and professionally package everything to your specifications. Precision, reliability, and on-time execution are guaranteed.
- We also handle shipping and distribution, including direct mailing to multiple recipients and returns management. Whether within Germany or anywhere in the world, we ensure your consignments arrive safely and on schedule.
- Need storage space? We can warehouse your promotional products for you, allowing you to access exactly the quantities you need at short notice—without having to maintain your own storage facilities.

If our fulfilment services sound like the right solution for your business, we'd be delighted to help. Simply get in touch by phone or email, and together we'll develop the ideal solution for your requirements.

All registered HEJU distributors can be found quickly and easily online using our Dealer Locator: <https://heju.eu/Haendler-finden>.
